Short event report

MGM school of biomedical sciences, National service scheme unit, had organised a seven day special camp, from 6th July 2021- 16 July 2021, at gadeshwar village vaje gram panchayat Raigad district, in which 20 students participated in the camp along with 4 co-ordinator of mgm sbs followed by the program officer ms. Anamika chawadi, the camp was to collect the data, through survey in the village, which help to know the current situation of the village, along with the survey there was also awareness program organised by the students, the topic for the awareness was as follows, 1. awareness about covid-19 symptoms & prevention

2. Hand hygiene awareness/ prevention at personal level

3. Importance of Mask

4. Importance of vaccination & encouragement for vaccination

5. Environmental sanitization

All the five topics were covered in the tenure of the special camp, each and every house started getting aware of the session, they came to know the importance of self prevention, it was high time pandemic, still students got chance to serve as covid warriors among the village, and with the help of survey students came to know the lifestyle of the people living in village, it was quite good to see the people living in village with great enthusiasm, having lots of things need to be developed, but still live in harmony with zero issue, each and every house of the village was overwhelming, everyone welcomed the students with joy and happiness on their faces, this special camp not only help to serve the village, but also help them to develop the inner satisfaction and meant to serve the society at personal level, looking at the enthusiastic face of children in village, our students also engaged with them and also made a peace session, where meditation was taught by the students, as this help them to stay focused on their goal and help to achieve good success in life,

Overall we would like to thank our director MGM SBS & also department of community medicine for helping us to show the direction towards the service to nation, the camp wouldn't be successful without the support and guidance of the both. We all had great experience, & also looking forward to attend such many more special camps!

Jai hind
